

CONTEXT

The following materials have been produced by a group of Headteachers, working in partnership with a School Improvement Adviser and the Leadership, Management and Governance Strategy Manager. The enquiry built on the expertise and enthusiasm of the group, existing school planning materials and looked forward to ‘embrace’ the new developments in OFSTED, the Every Child Matters and the new standards for Headteachers.

OUTCOMES

A ‘toolkit’ for supporting school development planning, that is not only a framework only for evaluation but a conduit to the new developments identified above. The materials, being ‘trialled’ at Leaders of Learning on 9th June 2005, are made up with the following elements:-

1	A central hub, where the values of a school are stated
2	Where evidence can be found on the stated theme
3	The activities involved at each stage
4	The stages of planning
5	The theme related to each section of the new SEF
6	And finally, the link to Every Child Matters

Once this evaluation exercise is complete, the evidence produced (or audit) can then be used to guide the next year’s SDP and the more longer term strategic plan.
